

Socket Features

The DRI Socket Series are engineered to provide the highest quality available. All of our sockets are designed in accordance with MIL-Specifications. The SLDE Snap Lock series is a unique design which allows for easy, FOD free panel mounting, while the BSE Track Mount Series allows for quick and easy FOD free track mounting. All of these sockets utilize MIL specified crimp socket terminals. Select your relay model from the chart below to see which socket series are available for your application.
